DOCTOR'S ADVICE

- Maintain a consistent sleep schedule — aim for 7–9 hours nightly.
- Engage in at least 30 minutes of physical activity every day.
- Practice stress management: meditation, breathing, or journaling.
- Follow a balanced diet rich in vegetables, fruits, and proteins.
- Monitor blood pressure and heart rate regularly.
- Stay hydrated — drink 2–3 litres of water daily.
- Consult a physician if sleep disorder symptoms persist.
